

CASE STUDY

**MORGAN
SINDALL**

Client: Network Rail
Details: Millerhill Depot
Project: The Installation of a Safe Walking Route

The Millerhill Train Depot was chosen to support the continued growth of Scotland's railway network, for the East of Scotland. The existing Network Rail yard was selected for the site of this new and prestigious development, as the maintenance care depot of Scot RAILS new electric train fleet.

As part of the modernisation programme and working with the EGIP alliance main contractor - Morgan Sindall, Premier Rail were awarded the tender - construction works for the safe walking routes associated with the platforms.
