

CASE STUDY

Client: Network Rail

Details: Thorne No 1&2

Project: Road carriageway works, access and egress improvements

Thorne 1

Premier Rail successfully won and completed the highways work in accordance with RSP7 for Network Rail Crossing Improvement Programme. This was required as part of the East Coast Alliance Consortium. The works to be undertaken at Thorne 1 & 2 near Doncaster. The scope of the works for this project included the upgrade of the level crossings, the REBs and level crossing furniture.

Works included:

- The management of the road works
- Road re-profiling
- Road Approach re-surfacing
- Widening of the road lanes
- Road marking
- 100m of kirbing laid
- Drainage works
- Installation of safety bollards
- Ground stabilisation & restoration
